**PROCESSING**

Use the graphic organizer below to create a storyboard for a children's book about the geography of ancient Greece. A storyboard is a simple draft of your ideas.

In the title box, write a title for your children's book. In each of the page boxes, make a simple sketch and then write two or three sentences explaining the topic. For example, on *Page 2: Visiting a Farm*, you might sketch crops growing on a hillside, and write about what farmers grew and why. Make sure your sentences are appropriately written for a young audience.

*Refer to your reading and/or your answers to be accurate.*
